

1 解答 (1) -2 (2) $\frac{9}{2}$ もしくは 4.5 (3) $3a+6$ (4) $-36a^2+4ab$

$$\begin{aligned}(1) \quad & 3+(-5) \\ & =3-5 \\ & =-2\end{aligned}$$

$$\begin{aligned}(2) \quad & 6^2 \div 8 \\ & =36 \div 8 \\ & =\frac{36}{8} \\ & =\frac{9}{2}\end{aligned}$$

$$\begin{aligned}(3) \quad & -2a+7-(1-5a) \\ & =-2a+7-1+5a \\ & =3a+6\end{aligned}$$

$$\begin{aligned}(4) \quad & (9a-b) \times (-4a) \\ & =9a \times (-4a) - b \times (-4a) \\ & =-36a^2+4ab\end{aligned}$$
